

ICT-31.xx
s w i s s m a d e

The ICT-31.xx mobile VT-100 terminal is designed for use in transport systems. You will be impressed by its robust design in a fanless IP65/31-type housing and by its lightweight 1-kg construction.

The ICT-31.xx, which is built and certified to conform to the EN 50155 railway standard, offers optimized resistance to shocks and vibration, ensuring trouble-free operation under the most difficult conditions. The manufacturer also guarantees an above-average service life.

STN-LCD display with LED	Graphics capability, 240 x 128 pixels Programmable backlight contrast and brightness
Standard interfaces	RS232 or RS422/RS485
Power supply choice	15 .. 45 / 45 .. 158 VDC
Cooling	Fanless
Operating temperature	Extended temperature range (EN 50155/T1)
Storage temperature	- 30 .. + 80 °C
Degree of protection	Front IP65, housing IP31
Standards	EN 50155
Dimensions	Cut out: 205 x 120 x 40 mm (L x W x D)
Weight	1 kg
